**Smart. Simple. Sustainable.**

# An Introduction to BioGreenChoice

BioGreenChoice is a part of the solution to the ecological crisis, offering the world an eco-friendly alternative to traditional paper and plastic disposable products. Since 2013, the brand has grown, becoming one of the leading quality sustainable foodservice disposable lines for consumers. Our products offer a variety of consumers the opportunity to conserve natural resources by utilizing sustainable, compostable materials. We manufacture over 100 products that are made from renewable resources like bagasse and cornstarch. BioGreenChoice products are healthier for humans to use and healthier for the environment. They do not carry an odor or alter the taste of food. All BioGreenChoice compostable products meet FDA requirements for food contact and ASTM D6400 standards for compostability. All our compostable products degrade in 90 days in commercial composting facilities, and they are either OK compost HOME, BPI certified. BioGreenChoice is the smart, simple solution to achieving “zero waste” in all industries including, but not limited to: restaurants, cafeterias, hotels, catered events, homes and all types of parties and celebrations.

## SMART

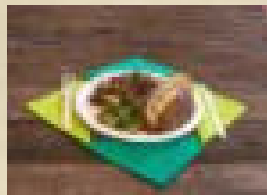

BioGreenChoice products are the truly green alternative to traditional paper and plastic products. As corporations demonstrate greater concern and responsibility for the environment, and consumers demand more safe, all-natural products, BioGreenChoice is the smart solution to meet those goals.

## SIMPLE

The switch from your current products to BioGreenChoice will be seamless. When you compare BioGreenChoice products to those made with traditional materials, the benefits are endless.

## SUSTAINABLE

Because they're made entirely from renewable resources, BioGreenChoice products are biodegradable and compostable. These are the zero-waste alternative to the plastics and chemicals overwhelming our landfills. BioGreenChoice products are the natural choice for a sustainable future.

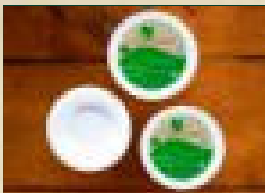

# FIBER MOLDED PRODUCTS

## OUR FIBER MOLDED PRODUCTS ARE:

- **DISPOSABLE:** BioGreenChoice Bagasse products are the perfect green alternative to disposable paper and plastic plates. These products are intended for single use, and to be thrown away when finished. They are a great choice for use in a variety of industries, such as: hotels, cafeterias, catered events, parties, homes and more.
- **ECO FRIENDLY:** Our Bagasse products are made from fibers (called bagasse) left behind from sugarcane/plant processing. Bagasse is a sustainable fiber that is a strong, durable alternative to traditional fibers derived from wood. These products will efficiently biodegrade as opposed to taking up more room in our overflowing landfills for years to come.
- **QUALITY ASSURED:** BioGreenChoice Bagasse products can handle a wide range of temperatures (up to 220°F), which makes them suitable for hot and cold foods. They are soak proof, useful in serving foods with and without sauces. The products are microwaveable and freezer safe.
- **CERTIFIED COMPOSTABLE:** All BioGreenChoice Bagasse products are OK compost HOME certified and meet the FDA requirements for food contact. They also meet the ASTM D6400 standards for compostability.

**BioGreenChoice**  
Smart. Simple. Sustainable.

**CLEAR PLA PRODUCTS**

## OUR CLEAR PLA PRODUCTS ARE:

- **DISPOSABLE:** BioGreenChoice products made from PLA are the perfect green alternative to disposable plastic products. They are a great choice for use in a variety of industries, such as: hotels, cafeterias, catered events, parties, homes and more.
- **ECO FRIENDLY:** These products are made from Poly Lactic Acid (PLA), a material developed from cornstarch. PLA is a sustainable resource that is a strong, durable alternative to traditional plastic. These products will efficiently biodegrade (in commercial facilities) as opposed to taking up more room in our overflowing landfills for years to come.
- **QUALITY ASSURED:** BioGreenChoice PLA products can handle temperatures below 110°F. They are strong and sturdy, allowing them to hold anything from smoothies to lemonade.
- **CERTIFIED COMPOSTABLE:** All BioGreenChoice PLA products are Biodegradable Products Institute (BPI) certified and meet the FDA requirements for food contact. They also meet the ASTM D6400 standards for compostability- they will degrade in 1 to 3 months in a commercial composting facility.

# CPLA PRODUCTS

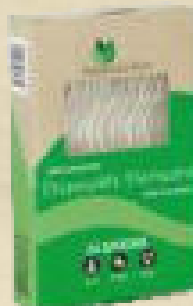

## OUR CPLA PRODUCTS ARE:

- **DISPOSABLE:** BioGreenChoice products made from CPLA are the perfect green alternative to disposable plastic products. They are a great choice for use in a variety of industries, such as: hotels, cafeterias, catered events, parties, homes and more.
- **ECO FRIENDLY:** Our CPLA products are made from modified Poly Lactic Acid (CPLA), a material developed from cornstarch. CPLA is a sustainable resource that is a strong, durable alternative to traditional plastic. These products will efficiently biodegrade (in commercial facilities) as opposed to taking up more room in our overflowing landfills for years to come.
- **QUALITY ASSURED:** BioGreenChoice CPLA products can handle a wide range of temperatures (up to 185°F), which makes them suitable for foods that are both hot and cold. They are strong and sturdy, making it easy to pierce, cut and hold a variety of foods.
- **CERTIFIED COMPOSTABLE:** All BioGreenChoice CPLA products are Biodegradable Products Institute (BPI) certified and meet the FDA requirements for food contact. They also meet the ASTM D6400 standards for compostability- they will degrade in 3 to 6 months in a commercial composting facility.

**PLA LINED PRODUCTS**

## OUR PLA LINED PRODUCTS ARE:

- **DISPOSABLE:** BioGreenChoice products made from paper and lined with a PLA bio lining are the perfect green alternative to disposable paper products. They are a great choice for use in a variety of industries, such as: hotels, cafeterias, catered events, parties, homes and more.
  - **ECO FRIENDLY:** These products are made from paper and lined with PLA as opposed to plastic or wax made of harmful chemicals. The bio lining is a sustainable resource that is a strong, durable alternative to traditional plastic lining and chemical waxes. These products will efficiently biodegrade (in commercial facilities) as opposed to taking up more room in our overflowing landfills for years to come.
  - **QUALITY ASSURED:** BioGreenChoice PLA lined products can handle a wide range of temperatures (up to 200°F) but single wall cups require a paper sleeve be used for hot beverages. They are strong and sturdy, allowing them to hold a variety of different substances.
  - **CERTIFIED COMPOSTABLE:** All BioGreenChoice products with PLA bio lining are Biodegradable Products Institute (BPI) certified and meet the FDA requirements for food contact. They also meet the ASTM D6400 standards for compostability- they will degrade in 1 to 3 months in a commercial composting facility.
