# TRUE CHOICEPACK

BioGreenChoice® Progress EcoWay®

**The one stop shop for your private label and wholesale disposable needs.**

TrueChoicePack is a total solutions provider specializing in private label brands and customized disposable products.

We use industry leading standards designed to deliver quality, efficiency, sustainability, and profitability. Our team helps customers with every step of the packaging process 'from concept to delivery'. We are proven experts in design, manufacturing, and distribution of products to the retail, food and beverage, and grocery industries.

# BioGreenChoice®

## Eco-Friendly Disposables

### Smart. Simple. Sustainable.

BioGreenChoice® is a green/sustainable product line which manufactures high quality environmentally friendly disposable and packaging products. We are highly specialized in biodegradable and compostable food service disposable and packaging products for use in hospitals, corporate cafeterias, Universities, restaurants, schools, and homes etc.

All BioGreenChoice products are made from annually renewable resources like sugarcane, corn etc.

Our products are sustainable alternatives to plastics and Styrofoam, and they are certified by BPI (Biodegradable Product Institute) and/or OK compost HOME for compostability.

Our team understands that the disposable needs of each of our customers are unique, and we offer a distinctive, consultative approach to satisfy these needs. Our in house expert team of scientists and engineers gives us the ability to develop highly innovative solutions. These solutions are carefully analyzed and tested to ensure they are the best solution and the best quality for our customers.

# Fiber-Molded

## Fiber-Molded Sugarcane Bagasse

Our fiber-molded products, crafted from sugarcane bagasse, provide a sustainable and eco-friendly solution for your foodservice needs. Designed for durability and performance, these products are perfect for businesses looking to reduce their environmental footprint without compromising on quality.

- **Eco-Friendly Material** Made from renewable sugarcane bagasse, offering a sustainable alternative to traditional plastics.
- **Commercially Compostable** Certified for commercial composting facilities, ensuring environmentally responsible disposal (BPI Certified #7654987).
- **Durable and Versatile** Ideal for both hot and cold foods, making them suitable for a wide range of foodservice applications.
- **Bulk Efficiency** Packaged for high-volume use, keeping your operations stocked and efficient.
- **Cost-Effective** Competitive pricing for bulk orders, providing excellent value for sustainable solutions.

## BPI Certified

Our fiber-molded products are BPI Certified, ensuring they meet the highest standards for compostability and environmental responsibility. This certification guarantees that our products are designed to break down efficiently in commercial composting facilities, contributing to a more sustainable future.

# Foils & Wraps

## HEAVY DUTY FOIL

Ensure your kitchen operations run smoothly with our high-quality aluminum foils. Designed for durability and versatility, our foils are perfect for wrapping, covering, and protecting food during cooking, storage, and transport. Whether you're running a busy restaurant, catering service, or institutional kitchen, our foils deliver the performance you need.

- **Heavy-Duty Strength:** Ideal for high-temperature cooking and heavy use, ensuring your food stays protected.
- **Versatile Sizes:** Available in rolls and sheets to suit various kitchen needs.
- **Bulk Efficiency:** Packaged for high-volume use, keeping your kitchen stocked and efficient.
- **Cost-Effective:** Competitive pricing for bulk orders, offering excellent value for foodservice businesses.

## WRAPS YOU CAN COUNT ON

Keep your food fresh and secure with our reliable plastic film wraps. Designed for convenience and efficiency, our wraps are perfect for covering trays, wrapping sandwiches, and protecting food during storage and transport. With easy-to-use sliding cutters, our wraps make kitchen tasks quicker and more efficient.
